Small Business Advocate Membership

Colorado has one of the most complicated and misunderstood tax systems in the nation. Simplify Colorado works for Colorado small businesses in association with statewide and national businesses, trade organizations and invested taxpayers to reform the tax code and achieve the goals of small businesses around Colorado. The mission of the Simplify Colorado Sales Tax coalition is to reform Colorado's excessively complex sales and use tax system with multiple goals:

1. Fairness, simplicity, and predictability for businesses
2. Revenue neutrality to avoid adverse impacts on local and state public services; and
3. Creating a competitive economic environment in Colorado that will attract employers.

National Federation of Independent Businesses (NFIB) works on the national level as an advocate for small business in an effort to reduce tax code compilation and reform the lengthy regulations to small businesses.
